

Index

- above-ground inundation, 64–66
- acceptable risk, 11, 37, 116
- acceptance of flood risks, 121, 123–126, 131
- ASC (Alternative-specific constant), 75, 79

- Bay's theorem, 114
- below-ground inundation, 64, 66
- building restriction, 168, 175
- BBS (Bulletin board system), 95, 98, 102

- catastrophic damage, 12, 23, 31
- cell phones, 93, 101
- checking hazard map, 137–138, 140
- choice experiment approach, 58, 74, 76
- citizen participation, 99–102, 168, 173
- climate change, 112–114
- cognitive response, 143–144
- community, 121, 126–129, 132
- concern about floods, 144, 150
- conditional logit model, 75
- consultation in selecting risk reduction, 204
- contents authoring, 200–201
- contents inventory, 200–201
- CVM (Contingent valuation method), 58, 85
- corporate citizen, 89
- CSA (Covariance structure analysis), 72
- cost-benefit, 43, 204
- damage, 25, 32, 37
- decentralized decision system, 42

- disaster preparedness, 89, 122, 127–129, 131
- disaster risk, 2–3, 89
- disaster volunteer activities, 154–157
- disaster volunteer organizations, 161

- earthquake, 114–115
- earthquake insurance, 193–195
- e-community platform, 91–95

- e-democracy, 102–103
- education effectiveness, 213, 223
- electron mapping system, 103
- emotional response, 143–144
- experts, 91, 106, 204
- exposure, 25, 30, 36
- exposure assessment, 12, 16
- exposure-damage response, 11, 16
- external flood control, 61, 69–70

- facilitator support, 204
- fear of flood, 136–138, 140
- flood anticipation, 136–138
- flood causal model, 46
- flood control, 58, 63, 68
- flood control structure, 165
- flood control measure, 84
- flood experience, 136, 142, 144
- flood hazard, 26, 37
- flood insurance, 140, 195
- flood risk, 23–25, 116, 210
- flood risk acceptability, 57, 63, 71
- flood risk assessment, 201
- flood risk communication, 199
- flood risk information, 200
- flood risk literacy, 201, 213, 217
- flood risk management, 169, 175, 199, 217
- flood risk perception, 63, 71, 144–150
- flood risk reduction, 67, 84, 208–210
- flooding, 110, 116

- GIS (Geographic information system), 93–94, 100
- GPS (Global positioning system), 103

- hard measures, 17, 46, 57, 135
- hazard, 3, 11, 25, 33
- hazard information, 91, 107

- hazard map, 103, 166–167, 172, 198, 210
- hazard assessment, 16
- home ownership, 136, 140–141, 143
- ICT (Information communication technology), 90, 97
- informed choice, 16, 19, 51
- insurance, 52, 138, 143, 197
- integrated flood control measurers, 122, 126
- integrated risk analysis framework, 2, 10
- integrated risk management, 41
- internal flood control, 61, 70
- internet accessible variation of Pafrics, 207–208
- interoperability, 90
- land use regulation, 48
- LFCS (Large-scale flood control structures), 25–26, 34, 39
- local communities, 81–92, 160, 213–219
- local government, 91–93, 99, 165–166, 169, 174
- LPHC (Low probability but high consequence), 31, 34, 37
- Markov process, 114–115
- MSR (Marginal substitution ratio), 76, 82
- multi-hazards, 20, 49
- multivariate regression, 69, 72
- mutual support, 89
- MWTP (Marginal willingness to pay), 75, 81
- Nagoya city, 59, 68, 83
- NFIP (National flood insurance program), 193–195, 197
- natural disaster, 193, 196–197
- neighborhood associations, 91–92, 101, 103
- networks of disaster groups, 154–156
- Niigata earthquake, 43
- non-marketable value, 41
- non-structural measure, 48, 62, 70, 72
- NPO (Non-profit organization), 89
- optimal resource allocation, 42
- Pafrics (Participatory flood risk communication support system), 15, 109, 198–199, 213
- post-event planning, 48
- post-event restoration, 53
- precaution-based, 13–14, 17
- probability, 112–117
- probable rainfall, 112–116, 118
- public insurance system, 193, 195
- public involvement, 54
- public preference, 57, 64, 76, 84
- questionnaire survey, 123, 136, 156, 214
- rainfall, 109–115, 117
- recognition of costs, 129, 131–132
- reinsurance, 194, 196
- residents' preparedness, 135–136, 138
- resilience, 10, 11, 24, 25, 33
- risk, 2–5
- risk characterization, 11–12
- risk communication, 9, 91, 127, 195, 217
- risk governance, 2, 14, 89
- risk information, 91, 106, 166, 171, 173
- risk mapping, 103
- risk reduction, 93
- risk scenario, 5–8
- risk triplet, 3–4
- risk-based, 14, 17
- river management, 57, 64, 85
- RSS (Risk site summary), 107
- scientific knowledge, 4, 91
- self-responsibility, 123, 125–127, 144, 150, 166
