Preface	xiii
---------------	------

I. Environmental Issues

I-1. Ariake

A newly emerging environmental issue: Development of hypoxia in the bottom water of Ariake Bay

H. Nakata, H. Mishina, T. Takahashi and K. Hirano 1

Study on the characteristics of surface layer's currents around the mouth of Isahaya Bay

A. Tada, T. Nakamura, S. Sakai, M. Mizunuma and K. Takenouchi 13

Seasonal variation of the material transport processes in the Ariake Sea

A. Manda, H. Kanehara, T. Aoshima, T. Kinoshita, J. Uchida, H. Nakata and T. Yanagi 29

Numerical experiment on the fortnight variation of the residual current in the Ariake Sea

A. Manda, A. Yamaguchi and H. Nakata 41

I-2. Saemangrum

Enhanced movements of sands off the Saemangeum Dyke by an interplay of dyke construction and winter monsoon

H.J. Lee 49

Distribution of heavy metals in the environmental samples of the Saemangeum coastal area, Korea

K.T. Kim, E.S. Kim, S.R. Cho, J.K. Park, K.T. Ra and J.M. Lee 71

I-3. Ariake and Saemangeum

A tale of two coasts; Tidal modification in Saemangeum and Isahaya

S. Lee, H.-J. Lie, K. Song and C.-H. Cho 91

II. Ecosystem Issues

II-1. HAB

Environmental changes in the inner part of Ariake Sound, West Japan recorded in dinoflagellate cyst assemblages K. Matsuoka and H.H. Shin	111
An overview on the occurrences of harmful algal blooms (HABs) and mitigation strategies in Korean coastal waters H.G. Kim	121
Environmental settings and harmful algal blooms in the sea area adjacent to the Changjiang River estuary M. Zhou	133

II-2. Biodiversity and behavior

Monitoring bacterial biodiversity in surface sediment using terminal restriction fragment length polymorphism analysis (T-RFLP): Application to coastal environment V. Thiagarajan, S.C.K.Lau, M. M. Y. Tsoi, W. Zhang and P.Y. Qian	151
Estimation of abundance and diversity of bacteria associating with burrow lining of <i>Capitella</i> sp. I in seawater soft-agar microcosm M. Wada, Z. Dan, H.-K. Do, H. Nomura, T. Kunihiro, M. Nishimura, K. Kogure, K. Ohwada and H. Tsutsumi	165
Distribution of tintinnids (loricate ciliates) in East Asian waters in summer J.-B. Lee and Y.-H. Kim	173
Biology of herbivorous fish in the coastal areas of western Japan A. Yamaguchi, K. Furumitsu, N. Yagishita and G. Kume	181

II-3. Endocrine disrupting chemicals

Relationship between concentration of chemical substances in estuarine sediments and concentration of vitellogenin in mudskipper (<i>Periophthalmus modestus</i>) and common goby (<i>Acanthogobius flavimanus</i>) serum Y. Takao, K. Kuwahara, M. Nagae and K. Soyano	191
Estrogenic activity in estuaries by measuring serum vitellogenin concentration of Japanese male common goby in northwestern part of Kyushu M. Nagae, Y. Takao, N. Ohkubo, T. Matsubara and K. Soyano	205
Contaminations by endocrine disrupting chemicals in coastal waters of the East China Sea K. Soyano, J. Aoki, Y. Itashiki, C.-B. Park, M. Nagae, Y. Takao, Y.-D. Lee, I.-K. Yeo and J. Zhong	215

II-4. Marine toxins & diseases

Toxins of pufferfish that cause human intoxications

O. Arakawa, D.-F. Hwang, S. Taniyama and T. Takatani	227
Possible factors responsible for the fish-killing mechanisms of the red tide phytoplankton, <i>Chattonella marina</i> and <i>Cochlodinium polykrikoides</i> D. Kim and T. Oda	245
Review on the protozoan parasite <i>Perkinsus olseni</i> (Lester and Davis 1981) infection in Asian waters K.-S. Choi and K.-I. Park	269

II-5. Ocean acidification

Life threatened in acidic coastal waters

A. Ishimatsu and A. Dissanayake	283
