---------------	---

MARINE CARBON CYCLE

Global Scale

Characterization of Ocean Productivity Using a New Physical-Biological Coupled Ocean Model

K. Nakata, T. Doi, K. Taguchi and S. Aoki	1
Natural Radiocarbon Distribution in the Deep Ocean	
K. Matsumoto and R. M. Key	45

Equatorial Region

Variability of Surface Layer CO₂ Parameters in the Western and Central Equatorial Pacific

M. Ishii, S. Saito, T. Tokieda, T. Kawano, K. Matsumoto and H. Y. Inoue	59
Settling Particles Flux in Response to El Niño/Southern Oscillation (ENSO) in the Equatorial Pacific	
H. Kawahata and L. P. Gupta	95
Particulate Amino Acids and Biogeochemical Processes in the Equatorial Pacific Ocean during the 1999–2001 La Niña Event	
L. P. Gupta and H. Kawahata	109
Floral Response of Coccolithophores to Progressive Oligotrophication in the South Equatorial Current, Pacific Ocean	
K. Hagino and H. Okada	121
Coccolith Carbonate Fluxes in the Northwest Pacific Ocean	
Y. Tanaka	133

Western Pacific

Artificial Radionuclides in the Western North Pacific: A Review

G. H. Hong, M. Baskaran and P. P. Povinec	147
Material Transport Processes on the Continental Margin in the East China Sea	
M. Yamada	173

Cadmium Distribution in the Western Pacific	
K. Abe	189

Ocean Environments in Response to Climatic Change

Climate Reconstructions from Annually Banded Corals	
T. Felis and J. Pätzold	205
Reef Water CO ₂ System and Carbon Production of Coral Reefs: Topographic Control of System-Level Performance	
A. Suzuki and H. Kawahata	229
Chemistry of Benthic Foraminiferal Shells for Recording Ocean Environments: Cd/Ca, $\delta^{13}\text{C}$ and Mg/Ca	
K. Tachikawa and H. Elderfield	249
Have the Tropical Pacific Ocean-Atmosphere Interactions Behaved as a Driver of Centennial- to Orbital-Scale Climate Changes?	
M. Yamamoto	265
Long Term Variations of Uranium Isotopes and Radiocarbon in the Surface Seawater Recorded in Corals	
Y. Yokoyama and T. M. Esat	279

TERRESTRIAL CARBON CYCLE

A Multi-Scale Analysis of a National Terrestrial Carbon Budget and the Effects of Land-Use Change	
C. M. Trotter, K. R. Tate, S. Sagar, N. A. Scott and M. A. Sutherland	311
Global Mapping of Terrestrial Primary Productivity and Light-Use Efficiency with a Process-Based Model	
A. Ito and T. Oikawa	343
Carbon and Nitrogen Accumulation in a Savanna Landscape: Field and Modeling Perspectives	
S. Archer, T. W. Boutton and C. R. McMurtry	359
Estimating Dynamics of CO ₂ Flux in Agro-Ecosystems based on Synergy of Remote Sensing and Process Modeling—A Methodological Study	
Y. Inoue and A. Oliosio	375
Changes in Productivity of East and South Asian Countries in the 21st Century: Regional Trends According to Climate Change	
K. Okamoto, M. Yokozawa and H. Kawashima	391
A Preliminary Study on the Carbon Dynamics of China's Forest Ecosystems in the Past 20 Years	
P. Gong, J. Chen and M. Xu	401

Retrieval of Forest Fire History in Far East Asia by Remote Sensing and Its Analysis with Biomass Burning Simulation and Climate Anomalies	
J. Kuçera and Y. Yasuoka	411
Potential of Woody Carbon Stock Estimation Using High Spatial Resolution Imagery: A Case Study of Spruce Stands	
Y. Awaya, S. Tsuyuki, E. Kodani and G. Takao	425
Multi-Temporal MODIS Data Product for Carbon Cycles Research	
Z. Dafang, L. Ronggao and S. Runhe	441
Photosynthetic Characteristics of Mixed Deciduous-Broadleaf Forests from Leaf to Stand	
T. Koike, S. Kitaoka, T. Ichie, T. T. Lei and M. Kitao	453
Effect of Free-Air CO ₂ Enrichment on Structures of Weed Communities and CO ₂ Exchange at the Flood-Water Surface in a Rice Paddy Field	
H. Koizumi, T. Kibe, T. Nakadai, Y. Yazaki, M. Adachi, M. Inatomi, M. Kondo and T. Ohtsuka	473
Author Index	487
Keyword Index	489
